INTRO

INTO THE WILD

For generations, four Clans of wild cats have shared the forest according to the laws laid down by their ancestors. But the warrior code is threatened, and the ThunderClan cats are in grave danger. A sinister cat from ShadowClan grows stronger every day. Noble warriors are dying-and some deaths are more mysterious than others.

In the midst of this turmoil appear an ordinary housecat named Rusty...who may turn out to be the bravest warrior of them all.

(If you find that certain names have been changed, it is because they don't work with ailuronymy's system of naming. Those names which are set off parentheses are the original names of the cats whose names I have changed. If you find that some cats have been moved from their original book placing it is because I believed that they fit there best.)

Sorry

Hello, I'm sorry to all reading this. I've been busy. I promise to keep writing sometime this week. Until then, have a nice day!

Welcome Back!

I'm not sure how many people will see this, but as you know, this project was dead. In the drain. Done for. I wasn't interested, but, as recent events have changed my mind, I will be writing this. Hopefully I can get this started and have it be enjoyed. Thank you so much!

So, on a side note, I've gone back and edited a few previous chapters. I'll make sure to post some information about how I'm naming them when I finish the allegiances.
